NavalX

The 2018 National Defense Strategy was a call to the Department of Defense to find ways to harness innovation in private businesses and academia to better serve and protect our country.

James Geurts, Assistant Secretary of the Navy for Research, Development & Acquisition (ASN (RD&A)) established NavalX in January 2019 to expand the Department of the Navy's (DON) capabilities.

NavalX connects both the internal DON and external DON partners to increase awareness and access to best practices and technologies.

NavalX

▼ NavalX is ...

- **Not** scouting coolest technology
- **Not** replacing other Naval innovation or war room efforts
- **Not** a buying activity like DIU
- **Not** a funding activity
- **Not** a means to circumvent the POM process
- **Not** competing with other defense innovation hubs (NSIN, AFWERX, etc.)
- **Not** the same as SOFWERX but can partner with SOFWERX

▼ NavalX is ...

- Building networks, breaking down silos, and connecting people!
- Accelerating the pace of discovery, learning, experimentation
- Making change easier

Connect with the Private Sector

Goal → Increase Network of Partners and Collaboration on Projects/Problems
